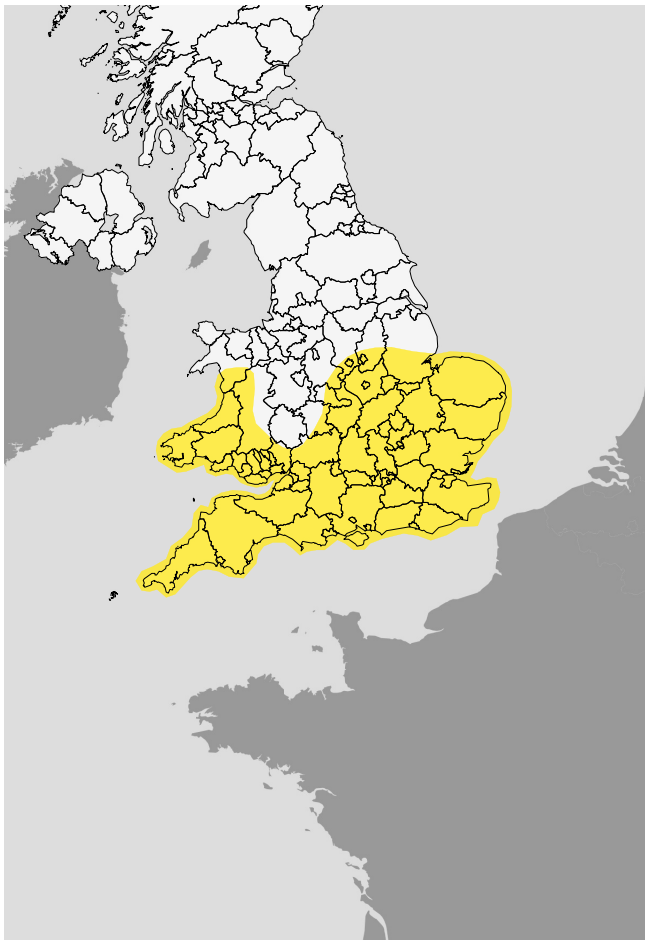
Yellow warning
Rain

Between
15:00 Sat 17 Feb 2024 and
09:00 Sun 18 Feb 2024



Rain may cause some travel disruption and flooding later Saturday through to Sunday morning

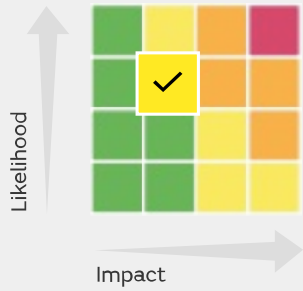
What to expect

- Flooding of a few homes and businesses is likely
- Bus and train services probably affected with journey times taking longer
- Spray and flooding on roads probably making journey times longer
- Some interruption to power supplies and other services likely

Further details

Rain will move east across England and Wales during Saturday afternoon and night before clearing southeast England on Sunday morning. With this rain falling on already saturated ground, impacts are more likely. Many places are likely to see 10-15 mm of rain, although 30-40 mm is possible over higher ground in western areas. There is a small chance that rain hesitates as it clears east on Sunday morning which may allow these higher accumulations to fall in a few places across central, southern and eastern England.

What should I do?



Medium likelihood of low impacts

Yellow warning
Rain

Between
15:00 Sat 17 Feb 2024 and
09:00 Sun 18 Feb 2024

Further Details (continued)

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Whilst rain is still expected across all of England and Wales later Saturday into early Sunday, the warning has been cancelled for much of north Wales and northern and western England as impacts are now less likely. The warning end time has also been brought forward.
